

DATASHEET

PAN SPEAKER P S-208 - PASSIVE SUBWOOFER

The **P S-208** is a passive high-performance subwoofers in a high-quality structure housing. It is characterized by an unobtrusive design, a genuine and deep bass response. The **P S-208** can be operated individually or in various Cardioidapplications. The **P S-208** incorporates two 8 „HQ-bass speakers. Some adjustments could be made on its top by means of screw thread to fix a distance pipe if necessary. The housing is designed as a band-pass filter and is available in all RAL colors, the standard color is black - textured finish. The P S-208 is equipped with two NL4 connectors and a signal switch. The switch allows the speaker to be operated either on NL4 1 +/- or 2 +/-.

FEATURES:

Genuine and deep bass response, integrated protection circuit, slim unobtrusive design

ADDITIONAL OPTIONS

TECHNICAL DATA P S-208

ACOUSTIC SPECIFICATION

Type	Bandpass
Frequency response:	42 Hz - 120 Hz*
Drivers:	2 x HQ 8"
Rated Power:	800 W (peak) / 500 W (program)
Recommended amplifier:	Lab. Gruppen IPD 1200
Maximum SPL:	128 dB* (peak) @1m
Nominal Impedance:	8 Ohm
Connectors:	2 x NL4 + signal switch (1 +/1- oder 2+/2-)
Temperature range:	-10°C - +50°C Environment

*anechoic halfspace-conditions

GENERAL SPECIFICATION

Enclosure:	15mm multi-laminate birch ply
Colour:	structure finish black
Dimensions (HxDxW):	310 x 460 x 480 mm
Weight:	10 kg
