

CENTRAL UNIT

TS-800

■DESCRIPTION

The TS-800 is a Central unit of the Infrared Conference system. Since the system is cordless,

it can be easily installed and removed based on a free layout.

Connecting the TS-800 to the Transmitter/Receiver units permits control of the conference units. It features control function from a PC (The control software is not attached.), and installation confirmation function that confirms the connection status for the Transmitter/Receiver units and installation status for the conference units.

With the use of an optional rack mounting bracket, it can be mounted in an EIA Standard equipment rack (4 unit size).
